

The ultimate strategic Partner Program

Enhance your offering with a state-of-the-art accounts payable & Amazon Business integrated buying platform

Compleat is the ideal solution for partners to expand their offering to include e-invoicing & purchasing automation for their SMB customers & introduce substantial differentiation from their competitors to increase core sales conversion rates, while growing recurring revenues.

Compleat was developed with the objective of creating an AP automation add-on to expand the functionality of any accounting software & streamline the e-invoicing process, additionally providing smarter spend capabilities to not only digitize the buying process, but instantly generate significant savings on indirect spend.

The software investment becomes a commercial no-brainer, with an exceptionally quick ROI & deployment time being as little as a couple of days.

Invoice data capture

Smart approval workflows

Smarter spend and instant savings

✓ CompleatCapture

Enjoy a 90% productivity gain over manual processes through zero-touch e-invoice capture.

Our unique CompleatCapture portal uses the most advanced AI & machine learning technologies to deliver the most accurate data capture possible.

✓ Compleat Order & Buy

Full visibility & control over purchasing

From purchase requisitions & approvals to built in online buying capabilities with suppliers like Amazon Business.

Company spend has never been so user-friendly & the real time visibility & control over all spend changes every CFOs mind about the importance of online buying.

✓ **Dynamic approvals**

AP invoice capture & approvals

Approval workflows have capabilities like smart simultaneous multi-step routing to ensure the quickest approval processes.

A mobile application allows quick invoice reviews & approval on the move.

✓ **Easy integrations**

Easy integrations with all accounting systems & ERP solutions

We offer open APIs to create exciting synergies with all kinds of solutions. From accounting systems & ERPs to document management - anything that needs best-in-class data capture - it's there for you.

Simple integration with any accounting and ERP software, including:

Microsoft Dynamics

qb intuit quickbooks.

sage

SunSystems

& Many more through our universal ERP connector

Become a Compleat partner. We are ready for you!

Level up to win against competition EVERY TIME

Use the quickest, most efficient & competitively priced e-Invoicing engine available with extra functionality your customers will love.

- Adopt unique technology that provides efficient invoice capture at the lowest TCO
- Our built-in online buying capabilities automate the whole buy to pay process with our Amazon Business partnership in place, with more suppliers & marketplaces to come!

100% Channel focus

Our solution is tailored for maximum gain for the partner channel.

- Comprehensive partner portal with inbuilt customer management functionality & reporting
- Real-time access to the status of every transaction being processed
- Flexible partner margins depending on how much you sell
- Onboard & start winning deals in weeks!
- Comprehensive training, sales support & marketing support

Flexible partnership options

Whether your solution needs a co-branded AP booster, or your proposal lacks integrated AP automation & online buying, Compleat is here for you.

- Replace a legacy OCR data capture engine with CompleatCapture
- Add Compleat to fully automate the AP function with sophisticated workflow & GL coding to meet the most demanding requirements
- Resell Compleat AP automation & built-in online buying with Amazon Business as an integrated part of every proposal

Maximize your earnings & get ahead

Offer your customers best-of-breed technology, set your own market price for each customer, & focus on value-added services.

- Increase customer loyalty by providing the best solution available
- Zero-touch AP will save you & your customer's significant time
- Digitize the full buy to pay process for customers
- Provide value-added services such as consulting, training & support for the digital journey rather than the day-to-day.
