Why do you need Purchase-to-Pay?

✓ Control spend as it happens

Compleat P2P delivers total real-time oversight of every planned & committed purchase in play to everyone who needs to know & fully automates the capture of the invoice undertaking a “2-way” & “3-way” match.

✓ Simplify the entire purchasing process - with zero paper

Remove all paper from the entire purchasing process at the outset. This solution delivers the real-time status of every transaction (including payment status) & budget availability to everyone who needs to know, to put the entire business on the same page.

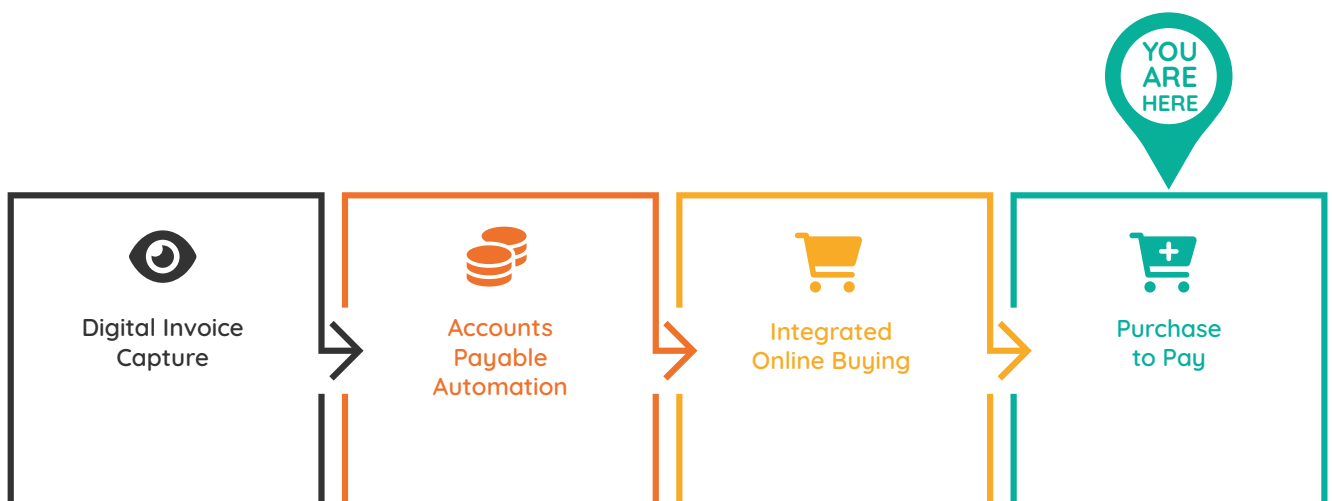

✓ Replace outdated month-end management reports with real-time information

Enable your budget holders to significantly expand their financial management skills, improve their financial planning to ensure they maximize the value of all their corporate spend.

✓ Gain total visibility of future cash requirements

The real-time view of commitments & accruals also enables faster month-end closes, speeding up the delivery of monthly management reports.
